

Project Officer – Waterways and Floodplain

- Protecting our waterways and the community
- Great lifestyle location
- 12 month position

NORTH CENTRAL
Catchment Management Authority
Connecting Rivers, Landscapes, People

The purpose of the North Central Catchment Management Authority (CMA) is to protect and enhance the integrity of our catchments. Our vision is to become a benchmark organisation by working in partnership with our communities to deliver enduring natural resource management outcomes. We are currently seeking an enthusiastic and motivated person to join our team for a 12 month period as a Project Officer in our Statutory Functions area.

Located at our Huntly office, the purpose of the Project Officer-Waterways and Floodplain role is to support the North Central CMA in achieving its statutory obligation to ensure regional flooding issues are managed in an integrated way. The role focuses on flood management and drainage issues and responsibilities include; investigating of floodplain information, providing flood level advice, flood risk management, managing responses for works on waterways permits, ensuring statutory compliance and project management. Consultation and liaison with a variety of internal and external stakeholders is required, including regular engagement with the community.

The essential criteria to succeed in this role include:

- An understanding of floodplain management principles, town and regional planning issues
- Sound knowledge of environmental, social and economic impacts related to waterways
- The ability to manage time and tasks efficiently
- The ability to communicate clearly and effectively with a wide range of stakeholders, including the general public
- Ability to work in a small, multi-disciplinary team that responds to various demands and manages multiple activities simultaneously
- Demonstrated experience and aptitude in Microsoft Office. With experience with GIS and hydrologic/hydraulic modelling packages such as HecRas and RORBWin highly desirable.
- An appropriate tertiary degree qualification in civil or environmental engineering is preferred. Alternative tertiary degree qualifications in natural resources, planning, earth sciences or equivalent may be considered.

Both graduates and experienced professionals are encouraged to apply. A salary package will be offered commensurate with the successful candidate's level of skill and experience.

For further information about this position, obtain a position description from the Jobs and Tenders section of our website at www.nccma.vic.gov.au or contact the North Central CMA reception on (03) 5448 7124.

Applications marked 'confidential' and addressing the key selection criteria within the position description should be e-mailed to hrmanager@nccma.vic.gov.au or posted to the HR Manager, North Central CMA, PO Box 18 Huntly, VIC 3551.

Applications will be accepted until **5pm, Friday 6th February, 2014.**
