

Governance Training for Landcare Groups in the North Central Region

Are you involved in a Landcare Group?

Do you want to make your group more successful?

The North Central Catchment Management Authority is offering the opportunity for Landcarers to be involved in a training session focussed on Governance. These sessions will be open to all Landcare executives and interested members to improve their management skills and knowledge to be able to effectively run a group.

What is Governance?

Governance refers to the effective and appropriate running of a group, and the issues and challenges that this brings. The Governance training session will focus on topics that relate specifically to Landcare groups, including the following:

- Group governance (executive positions – roles and responsibilities)
- Keeping the books
- Project management
- Meeting contractual obligations
- Committee structures and planning for succession
- Running effective and efficient meetings (meeting procedures)
- Conflict resolution
