# Irrigation farm business planning

## Workshops

The Irrigation Farm Business Plan is a key tool of the Plan2Farm program. The Plan provides the opportunity for you to assess where your business is situated now and where you want it to be in the future. The Plan will help you and those involved in your business make more informed decisions to improve your drought resilience, particularly in relation to managing irrigation water and water markets.

### BENEFITS

- Access to farm business consultants
- One on one farm visit to develop plan for your business
- Latest information about irrigation water and research
- Three group meetings focusing on key issues identified

### Topics and Speakers

Plan2Farm Overview

Water operating environment, Daryl Poole, RMCG

Succession planning, Paul Blackshaw, Meridian Agriculture

### FARMER WORKSHOPS

Farmers in the Torrumbarry and Loddon Valley irrigation areas from all industries are invited to join us for the first Irrigation Farm Business Planning meeting to hear more about the program and sign up to develop a plan.

**Tuesday 14th September 2021**

**Boort** 9:00am - 12:00pm

**Cohuna** 1:45pm - 4:45pm

COVID Safe event - RSVP Essential  
Numbers strictly limited
